

Safety Recall Notice

HP is conducting a worldwide voluntary recall of certain batteries manufactured between January 1, 2005, and January 10, 2005, for use with certain HP and Compaq brand notebook PCs. The recalled batteries can overheat and create a hazard to consumers. The notebook computer is not affected by this recall.

Batteries that have bar code numbers starting with L3 must be verified through the program Web site at <http://www.hp.com/support/BatteryReplacement>.

What to do:

1. Immediately stop using your battery.
2. Visit the Web site or call the number below to assist in determining whether or not your battery is part of this recall.

<http://www.hp.com/support/BatteryReplacement>

1-888-202-4320 (U.S. & Canada)
7 A.M.–7 P.M. CST, Monday–Friday

For other countries, call the specific in-country telephone number available on the program Web site.
